## Things you should know:

**We want to ensure that you have a memorable experience whilst visiting the Green Kalahari.**

It is winter in South Africa and the Northern Cape does get cold especially in the mornings and evenings.

The temperatures start at 2 degrees Celsius (35 degrees Fahrenheit) and warms to around 20 degrees Celsius (68 degrees Fahrenheit).

We would suggest you carry a jacket if these temperatures are not in your comfort zone.

We have made allowances for heaters and fire pits for your comfort especially for the closing dinner.

**We wish you safe travels and a successful conference!**
